IUGS HERITAGE STONE

In Zumaia, Basque Coast Global Geopark 28 / October / 2022

Stanley Finney
Secretary General, International Union of Geological Sciences (IUGS)

Asier Hilario
Chair, IUGS-International Commission on Geoheritage

“ An IUGS Heritage Stone is an IUGS designated natural stone that has been used in significant architecture and monuments, recognized as integral aspects of human culture. ”

NOTE:
This is a scientific recognition. Its commercial use as well as use of the official logo are forbidden by the IUGS International Commission on Geoheritage.
